

just pure water

Pure Water Wash Systems
for glass, facades and solarpanels.
Low and high pressure units.
Ergonomic carbon poles.

CARBON POLES TREND LINE 35 AND 45

Baudoin Wash Systems Industry develops efficient ergonomic carbon wash poles, brushes and accessories. The Trend Line 35 and 45 are proven, solid carbon poles, which are easy to connect due to the simple connection. The Trend Line 35 has a diameter of 35 mm and a length of 150 cm and can be used up to a height of approx. 10 meters and the Trend Line 45 has a diameter of 45 mm and a length of 170 cm and can be used up to a height of approx. 13.5 meters in total length. The teardrop shape of the poles offers an excellent grip. In addition, you only lift the length of poles that you need at that moment, in contrast to the telescopic poles.

CARBO CLEAN POLE WASH SYSTEMS

880 liter for vans
Hose reels via side door

880 liter for trailers
Hose reels via back door

Complete washing systems for commercial vehicles and trailers:

- Base of strong black PE tank in 1 piece with safety stabilization baffles
- Solid stainless steel frame for mounting reel(s) on the back and side of the system
- Stainless steel reel(s) with 100 meter flexible reel hose 10x15.5 mm, blue incl. pro coupling
- Pump(s) 10 bar, 24V, in stainless steel pump box, with variable water volume control 100-250 liters per hour.
- Stainless steel control box with Siemens 4" touchscreen control panel for operating pumps, reading water level, low water protection and low battery protection
- 1 or 2 Deep-Cycle AGM batteries, 220 Ah, 12V or 24V system in PE box, black
- Special AGM battery charger, high frequency, for 12V and 24V battery, 15-30 Ah, 230V connection
- Power group consisting of 2 sockets with 16Ah automatic fuse.
- Self-retracting power cable reel, 17 meter industrial cable black 3x2.5mm², 1 phase/230V/10Ah/2300W

Option: • Baudoin Aqua Force Pure Water Filter Units

- Baudoin Aqua Heating Eco Line
- Stainless steel high pressure pump
- Coating for commercial vehicle or trailer
- Custom made pole rack

SYSTEM

660 liter version for 1 person
880 liter version for 2 persons
1100 liter version for 2 persons

Baudoin Aqua Heating Unit Eco Line for hot water

Using heated water to 45 degrees can **save up to 40%** of time and in most cases no need for chemicals. When using the heater, **the entire tank is heated** and the heater switches off when the desired temperature is reached, resulting in **low fuel and electricity consumption**. The Eco Line heaters are very efficient because of the **Blue Efficiency®** technology. Burning up to 1450 degrees Celsius means there are **no soot emissions** and the heater can also be used in **environmental zones**. Due to this technology, **minimal maintenance** is required and the heater is **very quiet**.

- Operation via Siemens touch screen control panel.
- Temperature sensor built into the water tank.
- Stainless steel exhaust including insulated exhaust hose.
- Converter from 24V to 230V, heater capacity 25Kw

Baudoin Rotating Wash Brush

In combination with the stainless steel High Pressure Pump

Water pressure: min. 100 bar / max. 160 bar
Water quantity: min. 7 l / min. / max. 10 l / min
To be used with Trend Line 45 Carbo Clean Poles.

Including 10 meters high pressure hose, 10m carbon pole and M22 connectors

ART.

40.00001

40.00003

Industrial stainless steel 316 High Pressure Pump

The high-pressure pump can work on 230 Volts, which is available for almost every job. It delivers a pressure of up to 100 bar and approx. 9 liters of (pure) water per minute. With a 3-way tap you have the option to use pure water from the tank or tap water. Need more pressure? Ask us about the possibilities of high-pressure pumps in 400 Volt or Diesel.

- 230V / 2500W
 - Adjustable from 30-100 bar, average 9 litres/min
 - Work up to a height of 100 meters
- Including 100 meters high pressure hose

ART.

40.00004

Drone Cleaning

For cleaning glass, facades and solar panels in combination with high pressure.

- Robust carbon frame
 - Loading weight up to 20 kg.
 - Up to 60 minutes flight time
 - Lithium batteries 48V
 - Incl. object distance determination camera
 - Flight license required
 - Dimensions: 168x168x84 cm
diameter propellers 233 cm
- OPTIONAL; Extra battery pack

BAUDOIN AQUA FORCE PURE WATER FILTRATION UNITS

Pure water is required to obtain a stripeless and shiny result. We develop and manufacture our own pure water filtration units to high standards. Low-maintenance and easy-to-use units to fill your tank(s) with ultra-pure water. With a mobile unit you can work directly from the unit.

Baudoin Aqua Force Pure Water Filter Unit Compact 450

- Produces approx. 360 liters of pure water per hour
- Computer controlled, with flow meter
- Incl. pre-pressure pump, operating pressure approx. 4.5 bar
- Incl. 10" pre-filter outside the unit
- Stainless steel frame 125x38x38 cm, approx. 65 kg
- Power 230V / 1450W

ART.
60.00103

Baudoin Aqua Force Pure Water Filter Unit Compact 900

- Produces approx. 900 liters of pure water per hour
- Siemens control with 4" touchscreen control panel in E-box 60x60x21 cm outside the unit
- Incl. digital flow meters
- Incl. frequency controlled work pump
- Incl. pre-pressure pump, working pressure approx. 9 bar
- Stainless steel frame 135x50x45 cm, approx. 135 kg
- Power 230V or 400V / 2750W

ART.
60.00118

Baudoin Aqua Force Pure Water Filter Unit 1000 for tank station

- Produces approx. 800-900 liters of pure water per hour
- Siemens control with 4" touchscreen control panel in E-box 60x60x21 cm inside the unit
- Incl. digital flow meters
- Incl. stainless steel pre-pressure pump, work pump and automatic tank filling pump
- Incl. 20" pre-filter with bayonet connection incl. manometers
- Baudoin DI Ultra Filter filled with resin for extra pure water, 50 litres
- Stainless steel frame 120x80x190 cm, approx. 395 kg with open rear
- Power 400V / 3450W

ART.

Contactless Payment system

Contactless payment terminal, to pay easily with debit card, credit card or your own prepaid EcoWash key. The perfect solution to offer your clients a 24/7 available pure water refill.

www.baudoin.com

Baudoin Aqua Force Pure Water Filter Unit Compact 450 Mobile

- Placed on black PE base 70x135 cm
- Big blue Filter 10", 5 micron
- Incl. 4 clamps for 2 poles
- 2 solid black handles mounted on the water unit for transport
- Pre-filter holder big blue 10" with stainless steel mounting bracket
- 2 swivel and 2 fixed wheels stainless steel 200 mm
- 4 roll protection wheels on the 4 corners of the PE frame

Option 1

- Self-retracting stainless steel reel with 25 meters of blue work hose 8x13 mm
- Storage box PE black with lid

Option 2

- Stainless steel reel with 60 meters of blue reel hose 10x15.5 mm
- Baudoin DI Ultra Filter filled with resin for extra pure water, 19 liter

Eco Washer

A NEW ingenious cleaning system for marinas and car-camper-caravan wash locations, to provide service and offers at the same time an environmentally friendly and ecological solution!

With this system you can wash without using harmful cleaning detergents. The ingenious cleaning system removes all minerals and lime from the tap water. As a result the boat, car, camper or caravan dries spot free and stripe less after washing with this pure water.

The Eco Car Wash is equipped with an extendable washing pole 1,5 – 3,5 meter with sponge, a self-retracting stainless steel hose reel with 30 to 60 meters of flexible 8x14 mm hose and has a contactless payment terminal, to pay easily with debit card, credit card or your own prepaid EcoWash key.

BAUDOIN INDOOR CLEAN POLE

Award winning Indoor wash system for cleaning windows, ceilings, floors and stairwells.

Suitable for materials like glass, natural stone, stainless steel, aluminium etc.

The Indoor Clean Pole atomizes the pure water and the microfibre pads absorb the dirt.

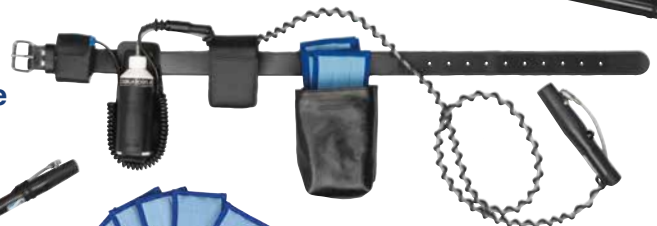

- leather belt
- battery with led indicator
- charger
- 12 V pump cabinet
- 500 ml bottle for pure water
- 10 glass pads
- extra bag for pads

Dimensions and weights are subject to production differences and may deviate fractionally from the stated values.

Indoor Extend Pole

150 cm long extension pole with integrated hose and couplings.
Our Indoor Clean Poles can be build up to 10 m (up to 5 poles).

Microfiber Glass Pad

26 cm wide pads for glass and mirrors.

Microfiber heavy duty pad

26 cm wide pads for smooth surfaces.

Indoor Clean Pole Carry Bag

Ideal for carrying the complete indoor set.
