BAUDOIN OCEAN WASH-SYSTEMS B.V.

Baudoin Ocean Wash-Systems b.v. is constantly working on new developments, techniques and innovations in the area of Super Yacht, Boat and Cruise line cleaning installations and accessories. By using our innovative reverse osmosis system the Super Yacht can be cleaned without the use of soaps, but the biggest advantage of our system will be that drying after cleaning will be unnecessary. Feedback from the market is considered most important at Baudoin, which results in products being made for and by the Super Yacht industry. With 25 years of experience in the industry as a producer of various wash systems and active on the Super Yacht industry since 2003 - for new-build or refit - Baudoin Ocean Wash-Systems b.v. offers answers and solutions to every cleaning problem!

The products of Baudoin Ocean Wash-Systems are being developed, manufactured and assembled in our own workshop. We are able to build 100% custom made which makes our systems suitable for any Yacht from drawing board to refit stage. With short lines in our company and dealer network, communication to our customer is guaranteed to be fast, efficient and flexible. If your wishes go beyond to what is described in this brochure, Baudoin or one of our dealers, will translate all your needs into a customized product. Besides building Pure Water Units we also build Trailers, Vans, Trucks and Containers with fully equipped Pure Water Systems.

OCEAN WASH-SERVICES

With our professional trained teams we are able to arrange a total Wash Down of the yacht with our especially equipped wash trucks and Wash Tender Boats. Also the service and delivery of Pure Water.

WHY CHOOSE A BAUDOIN OCEAN WASH-SYSTEM

1. Innovative low and middle pressure units;
2. Durable high quality products;
3. Distinctive modern compact design;
4. Flexible custom build solutions;
5. Engineered and build in The Netherlands;
6. Long life filters 6 till 10 years;
7. Computer controlled system;
8. Constant ultra pure water;
9. Computer program can be done in more than 12 languages;
10. High quality SS 316 pumps;
11. Automatic filters cleaning;
12. Low maintenance units;
13. Own development and research;
14. Ultimate water pressure and saving water consumption;
15. Ergonomic carbon light wash equipment & multiple accessories;
16. Total concept supplier.

The Baudoin Ocean Pure Water Units are available in different measurements and we can fully organize the workspace for the wash equipment to your needs.

THE ULTIMATE WASH SOLUTION

BAUDOIN AQUA FORCE PURE WATER FILTER UNIT

As a manufacturer, we have many years of experience in producing and developing our own Reverse Osmosis Units. The Baudoine Reverse Osmosis Units are designed to make pure water out of tap and/or fresh water. The Units are able to filter all lime, minerals, metals and bacteria from the tap water with several different filters, which results in pure water. Water in its purest form has an amazingly strong cleaning capability; soap and all other cleaning tools will not be necessary anymore. By washing the Super Yacht with Baudoine Aqua Force Pure Water it will quickly get a clean, nice, shiny and spotless result, even at dark paint!

The lifespan of the paint can be extended by cleaning the Super Yacht regularly with our Pure Water Systems

Our most important goal to obtain is a stripeless and shiny result with our clean pure water. Therefore we only selected the best materials to maintain our high quality. These 100% self-operating machines are very easy to control and are low maintenance. The Units can be executed from 200 liter to 2000 liter each hour depending on the size of the Super Yacht and number of the crew.

SMA200 Baudoine Aqua Force Smart 200 (40 KG)

The smallest Water Unit in our product range, which is available in a mobile or stationary version without control unit. Suitable for small boats up to 15 meters.

- produces 160 liter of pure water each hour
- without automatic control system
- SS frame 75x38x38cm with 2 wheels and handle
- integrated water filter

SMA400 Baudoine Aqua Force Smart 400 (60 KG)

This medium Water Unit in our product range is available in a mobile or stationary version without control unit.

- produces 360 liter of pure water each hour
- without automatic control system
- SS frame 75x38x38cm with 2 wheels and handle
- integrated water filter

BAFC450 Baudoine Aqua Force Smart compact 450 (75 KG)

This medium Water Unit which is only available in a stationary version is the smallest unit with a automatic control system. Suitable for boats up to 25 meters.

- produces 350-400 liter of pure water each hour
- with automatic control system
- SS frame 120x38x38cm
- integrated water filter
- flow meter
- front pressure pump

BAFC500 Baudoine Aqua Force compact 500 (100 KG)

This is a stationary Water Unit for those who need lots of pure water. Suitable for yachts from up to 35 meters.

- produces 400 liter of pure water each hour
- with automatic control system
- SS frame 75x38x59cm
- integrated water filter
- flow meter
- front pressure pump

BAFCM500 Baudoine Aqua Force compact mobile 500 (140 KG)

This Water Unit is a mobile solution and there for suitable for almost every Yacht, Yard or harbour.

- produces 400 liter of pure water each hour
- with automatic control system
- SS frame 75x38x130cm
- integrated water filter
- flow meter
- transport kit existing of: 4 wheels, 2 handles
- SS hose reel incl. 70 meter hose
- front pressure pump

BAUDOIN AQUA FORCE PURE WATER FILTER UNIT

With our wide assortment of mobile and fixed Units we are able to meet almost all requests of our customers. For those who have special requirements, we have our own engineering department to design your own system.

BAFVC900: Baudoin Aqua Force Compact 900 (115 KG)

This is a stationary Water Unit with automatic control system and produces a large amount of pure water per hour which makes him suitable for yachts up to 50 meters.

- produces 900 liter of pure water each hour
- suitable for 2 persons
- SS frame 125x45x45 cm.
- flow meters for pure- and waste water
- integrated water filter
- front pressure pump

The BAFVC/D 1000-2000 Baudoin Aqua Force compact single and dual 1000-2000 fixed

These Units, which are one of the biggest units in our product range, are normally build into the Super Yachts with a length of 60 to 160 meter +. The difference of these units are that they have a single or dual Reverse Osmosis unit. It will be connected to a technical water tank or directly mounted onto the deck-wash system on board of the Yacht. This will make it possible to have pure water on every deck outlet.

- digital touch screen panel and computer
- flow meter and control indicators
- SS 316 pressure deck-wash pumps in a range from 0 till 25 bar
- with automatic control system
- integrated carbon water filter with easy connect system
- SS front pressure pump, tapwater input pressure 3-6 bar
- on request available in different measurements

BAFVC1000 Baudoin Aqua Force Compact 1000 Fixed (450 KG)

- produces 1 x 1000 liter of pure water each hour, 24.000 liter max. p/day
- SS 316 frame 185x70x83cm or 80x70x180cm

BAFVC2000 Baudoin Aqua Force Compact 2000 Fixed (575 KG)

- produces 1 x 2000 liter of pure water each hour, 48.000 liter max. p/day
- SS 316 frame 185x70x83cm or 80x70x180cm

BAFVCD1000 Baudoin Aqua Force Compact dual 1000 Fixed (850 KG)

- produces 1 x 1000 liter of pure water each hour, 24.000 liter max. p/day
- has a back-up for 1 x 1000 liter of pure water each hour, 24.000 liter max. p/day
- SS 316 frame 180x70x180cm

BAFVCD2000 Baudoin Aqua Force Compact dual 2000 Fixed (1000 KG)

- produces 1 x 2000 liter of pure water each hour, 48.000 liter max. p/day
- has a back-up for 1 x 2000 liter of pure water each hour, 48.000 liter max. p/day
- SS 316 frame 180x70x180cm

OCEAN WASH-SERIES CARBON POLES

Baudoin Ocean Wash-Systems B.V. develops and produces its own special ergonomic light carbon poles, brushes and accessories. The poles are very strong, light and easy to handle for cleaning the Super Yachts. The brushes are available in different shapes, colours, thickness and material and are fitting onto the carbon poles. The pole has an easy connect system and an ergonomic shape, which makes you able to stretch out the pole simply and quick.

No doubt that this system is the best available on the market!

We offer for our poles a wide range of standard brushes and accessories. Due to the fact we have our own workshop, we can also supply custom-made brushes and accessories (on request).

CCP35TL6Z Carbo Clean Pole Trend line 35, set 6 meter
 - 3 poles length 150 cm
 - 1 pole length 120 cm incl. rubber protection shell

CCP35TL9Z Carbo Clean Pole Trend line 35, set 9 meter
 - 5 poles length 150 cm
 - 1 pole length 120 cm incl. rubber protection shell

Hose thin blue flex 15, 25 or 50 meters with protected stainless steel quick connection coupling.

OCTL25SPA
