Trend Line 35 carbon poles

Baudoin Ocean Wash-Systems b.v. develops efficient, ergonomic carbon wash poles, brushes and accessories. The Trend Line 35 poles are proven, solid carbon washing poles, which are easy to connect due to the simple connection. The drop shape of the Trend Line 35 pole offers an excellent grip. The poles have a diameter of 35 mm and length of 150 cm and weighs only 335 gram. They can be used up to a height of approx. 10 meters. The 9 meter set is more than sufficient for washing boat hulls and glazing. When using the Trend Line 35 pole, you only lift the weight of the poles you need at that moment in length, unlike the telescopic poles where you always lift the entire weight of the pole. The unique adapter for the Trend Line 35 pole makes it possible to use both Baudoin and Shurhold® brushes and accessories on the pole.

Trend Line 35 carbon pole set 9 meter
 - 5x 150 cm pole
 - 1x 120 cm pole with rubber protection shell

MODEL	ART.
Trend Line 35 carbon pole set 9 meter Total weight: 2 kg	15.00007

Trend Line 35 carbon pole set 6 meter
 - 3x 150 cm pole
 - 1x 120 cm pole with rubber protection shell

MODEL	ART.
Trend Line 35 carbon pole set 6 meter Total weight: 1,33 kg	15.00006

Trend Line 35 carbon extension pole 150 cm

MODEL	ART.
Trend Line 35 carbon 150cm pole Weight: 335 gram	15.00001

Trend Line 35 carbon extend pole 120 cm with rubber protection shell

MODEL	ART.
Trend Line 35 carbon 120cm pole Weight: 335 gram	15.00002

Trend Line 35 carbon extend pole 60 cm with rubber protection shell

MODEL	ART.
Trend Line 35 Carbon 60cm pole Weight 225 gram	15.00030

Trend Line carbon hand grip short with rubber protection shell

MODEL	ART.
Trend Line 35 carbon hand grip	15.00003

Trend Line 35 and X-Tend Line carbon pole carry bag

MODEL	ART.
Carbon pole carry bag	55.00003

Trend Line 35 to X-Tend Line adapter

Trend Line 5 cm adapter, on 28 cm carbon bottom part for Baudoin X-Tend accessories

MODEL	ART.
Trend Line 35 - X-Tend line adapter	80.00022

Deck wash connector

Stainless steel 316, water tight mounting

MODEL	ART.
With DN8 coupling PN25 + aqua stop (double connection)	80.00028
With Gardena coupling PN25 + aqua stop (single connection)	80.00196
With Gardena nipple (open), for shore water connection	80.00029

Large blue mitt

Special micro fiber strands

MODEL	ART.
1 mitt	80.00056

Various couplings, reducers and splitters

Stainless steel 316. Depending on the model and purpose; available for DN8, DN6, Gardena® nipple, 1/8", 3/8", 1/2", 3/4" and 1" thread and 8mm or 13mm tube.

Gardena® and DN8 Quick Coupling are also available with Aqua Stop.

Please send an e-mail to info@baudoin.nl for our extended product list, availability and all options.

Microfiber cloth 40x40cm

Microfiber side to apply product
Soft side for quality finish

Chamois blue in tube

Absorbs 8 times its own weight in liquid

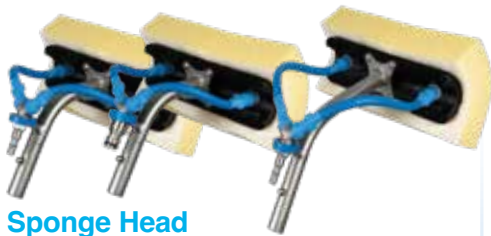

MODEL	ART.
Microfiber cloth	90.00015
Chamois blue in tube	80.00055

Leather work hose coupling protection cover

To protect the (teak) deck and paint from dragged couplings at washdown

MODEL	ART.
1 leather protection cover	80.00145

Sponge Head

X-Tend Line halfround 25 cm yellow sponge on a 7 or 15 cm arm

MODEL	ART.
DN8 stainless steel 316 nipple 7cm	45.00006
Gardena® stainless steel 316 nipple 7cm	45.00007
DN8 stainless steel 316 nipple 15cm	45.00056
Gardena® stainless steel 316 nipple 15cm	45.00057

Soft Blue Rounded Brush

X-Tend Line halfround 28 cm blue brush, 0,15 mm hair thickness, on a 7 cm arm.

MODEL	ART.
DN8 stainless steel 316 nipple	45.00008
Gardena® stainless steel 316 nipple	45.00009

Soft Blue Brush

X-Tend Line 20 cm blue brush, 0,15 mm hair thickness, on a 7 cm arm.

MODEL	ART.
DN8 stainless steel 316 nipple	45.00010
Gardena® stainless steel 316 nipple	45.00011

Teak Deck Brush

X-Tend Line 20 cm red brush, 0,5 mm hair thickness, on a 7 cm arm.

MODEL	ART.
DN8 stainless steel 316 nipple	45.00012
Gardena® stainless steel 316 nipple	45.00013

Doodle Bug Pad Holder

X-Tend Line 23 cm blue pad holder on a 7 cm arm.

MODEL	ART.
DN8 stainless steel 316 nipple	45.00014
Gardena® stainless steel 316 nipple	45.00015

Flexible Water Blade

X-Tend Line flexible water blade 30 cm with rubber grip, for hand use or with holder for Shurhold adapter. Also 45 cm with plastic grip.

MODEL	ART.
Flexible water blade 30 cm, rubber grip	80.00052
Flexible water blade 30 cm with holder	80.00021
Flexible water blade 45 cm, plastic grip	80.00176

Spray Gun

With protection, on/off and variable flow. Flow-control by thumb handling. Stainless steel 316 DN8 (8mm) or Gardena® nipple.

MODEL	ART.
Stainless steel DN8 nipple	80.00158
Stainless steel Gardena® nipple	80.00159

Blue Spray Gun

Blue spray gun with variable flow. Stainless steel 316 DN8 (8mm) or Gardena® nipple.

MODEL	ART.
Stainless steel DN8 nipple	80.00025
Stainless steel Gardena® nipple	80.00024

Hose Nozzle

Nozzle with variable flow. Stainless steel 316 DN8 (8mm) or Gardena® nipple.

MODEL	ART.
Stainless steel DN8 nipple	80.00111
Stainless steel Gardena® nipple	80.00195

Hosereel

Stainless steel 316 - automatic spring driven hose reel with adjustable SAFETY return delay DN12 blue hose and stainless steel 316 pro coupling DN8 (8 mm) on hose. Available in 20, 35 and 50 M.

MODEL	ART.
20 meter	80.00038
35 meter	80.00039
50 meter	80.00097

Squeegee

X-Tend Line with stainless steel 316 or Trend Line 35 on a 28 cm carbon pole. Length 40 and 60 cm. White or blue, rubber or foam.

X-TEND LINE	ART.
White foam squeegee 40 cm	45.00045
White foam squeegee 60 cm	45.00046
White rubber squeegee 40 cm	45.00042
White rubber squeegee 60 cm	45.00040
TREND LINE 35 CARBON 28 CM	
White foam squeegee 40 cm	45.00149
White foam squeegee 60 cm	45.00020
White rubber squeegee 40 cm	45.00148
White rubber squeegee 60 cm	45.00019

Extra Absorbent Mop

Mop made from absorbent PVA coated material.

MODEL	ART.
Mop	80.00053

Boat Hook

Strong hard plastic boat hook on X-Tend Line with stainless steel 316 connector or Trend Line 35 on a 28 cm carbon pole

MODEL	ART.
Boat Hook X-Tend Line	45.00030
Boat Hook Trendline 35 Carbon	80.00015

Work Hose White 8x14

White flexible work hose 8x14 mm. Available in any length. Standard with stainless steel 316 pro nipple and coupling DN8 (8 mm). Also available with Gardena® connector.

MODEL	ART.
15 Meter with DN8 connections	80.00153
25 Meter with DN8 connections	80.00142
50 Meter with DN8 connections	80.00154
15 Meter with Gardena® connections	80.00155
25 Meter with Gardena® connections	80.00156
50 Meter with Gardena® connections	80.00157

Work Hose Blue 8x14

Blue flexible work hose 8x14 mm. Available in any length. Standard with stainless steel 316 pro nipple and coupling DN8 (8 mm). Also available with Gardena® connector.

MODEL	ART.
15 meter with DN8 connections	80.00030
25 meter with DN8 connections	80.00031
50 meter with DN8 connections	80.00032
15 meter with Gardena® connections	80.00151
25 meter with Gardena® connections	80.00143
50 meter with Gardena® connections	80.00152

Also available in white

Work Hose Blue 12x19

Blue flexible work hose 12x19 mm for extra good flow out of the blue spray guns. Available in any length. With stainless steel 316 pro nipple and coupling DN8 (8 mm). Also available with Gardena® connector.

MODEL	ART.
12,5 meter with DN8 connections	80.00106
25 meter with DN8 connections	80.00107
12,5 meter with Gardena connections	80.00197
25 meter with Gardena connections	80.00198

Carbon pole holder

High density PVC, white
Bottom plate for pole bottom placement.
Top plate with rubber clamps.

MODEL	ART.
For 2 poles	81.00001
For 3 poles	81.00002
For 4 poles	81.00003
For 6 poles	81.00005

Handgrip holder

For 2 or 3 handgrips.
High density PVC, white

MODEL	ART.
For 2 hand grips	81.00009
For 3 hand grips	81.00010

1 and 1,5 liter spray flacon holder

For 1 spray flacon.
High density PVC, white

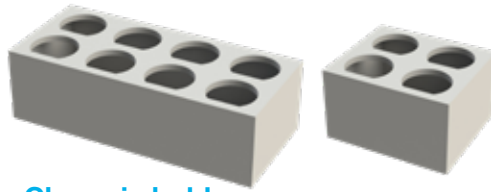

MODEL	ART.
For 1 spray flacon	81.00021

Flexible water blade holder

For 2 or 3 blades or 2 big blades.
High density PVC, white

MODEL	ART.
For 2 blades	81.00015
For 3 blades	81.00055
For 2 big 45cm blades	81.00068

Chamois holder

For 4, 6 or 8 chamois.
High density PVC, white

MODEL	ART.
For 4 chamois	81.00016
For 6 chamois	81.00017
For 8 chamois	81.00018

Wash mitt holder

For 2 or 3 wash mitts.
High density PVC, white

MODEL	ART.
For 2 wash mitts	81.00019
For 3 wash mitts	81.00020

X-Tend Line brush holder

For 2, 3 or 5 brushes.
High density POM, white

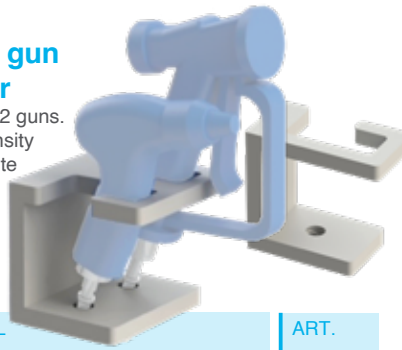

MODEL	ART.
For 2 X-Tend brushes	81.00062
For 3 X-Tend brushes	81.00063
For 5 X-Tend brushes	81.00061

Blue spray gun holder

For 1 or 2 guns.
High density PVC, white

MODEL	ART.
For 1 spray gun	81.00022
For 2 spray guns	81.00023

Work hose holder

High density PVC, white

MODEL	ART.
1 work hose holder	81.00026

X-Tend Line brush holder

For 1 brush
High-density PVC, white

MODEL	ART.
For 1 X-Tend brush	81.00064

Holder for Blue Rectangular Bucket 10L

For 1 to 4 custom buckets
High-density PVC, white

MODEL	ART.
Holder for 1 to 4 Blue Buckets	81.00071

Universal Holder for 1, 2 or 4 40-60cm squeegees or water blades

High density PVC, white

MODEL	ART.
For 1 squeegee or water blade	81.00027
For 2 squeegees or water blades	81.00028
For 4 squeegees or water blades	81.00066

Holder for connector, T-splitter and mop

For 2, 3 or 4 pieces.
High density PVC, white

MODEL	ART.
For 2 pieces	81.00029
For 3 pieces	81.00030
For 4 pieces	81.00031

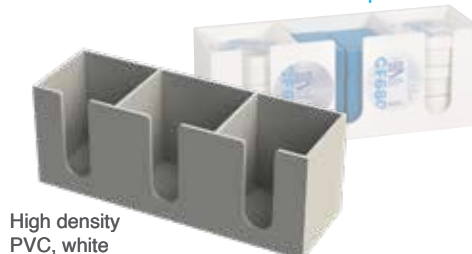

Multi Holder for 2 blue sponges, 2 pasta tins, 2 sprayers, 2 sizes waterblades, 1 chamois, 1 wash mitt, 1 spray gun, 1 short hose

High density PVC, white

MODEL	ART.
1 holder, without products	81.00072

Holder for 6 blue sponges, 3x CF680 universal cleaner pasta and 3x CF690 stainless steel cleaner / protection

High density PVC, white

MODEL	ART.
1 holder, without products	81.00054

Holder for sprayers and CleanForce 1L products

High density PVC, white

MODEL	ART.
1 holder for 4 items, without products	81.00032
1 holder for 8 items, without products	81.00033

Carbon X-Tend Line poles

Baudoin Ocean Wash-Systems b.v. develops efficient carbon washing poles, brushes and accessories. The new light and stable X-Tend Line poles are compact and very easy and quickly extendable for extra length. All Baudoin brushes and accessories can be easily attached to the X-Tend Line poles through the special pole connector. Besides this, the Shurhold® accessories also fit on this pole connector.

X-Tend Line carbon telescopic extendable pole 2 meters with hand grip

Retracted: 1,16 meter
Extended: 2,06 meter
Pole Diameter: 25 millimeters
Weight: 0,4 kilogram
Sections: 2

Baudoin Ocean Aqua Force Compact 450

ART. NO. | 60.00002

- produces ca. 360 L of pure water each hour
- ca. 65 kg
- stainless steel frame 125x38x38 cm
- power 230 V / 1450 W

- flow meters & pressure gauges
- computer controlled

Baudoin Ocean Aqua Force Compact 900

ART. NO. | 60.00005

- produces ca. 900 L of pure water each hour
- Siemens controle and 4" touch screen
- frequency driven pressure pump
- stainless steel frame 135x50x45 cm
- power 230 V / 2500 W - ca. 115 kg

- integrated water filter
- front pressure pump

Baudoin Ocean Aqua Force Compact 900 with buffer tank

For good pressure and flow on every deck wash point! The perfect combination of pure water and good pressure in a small unit. Ideal to build in a refit or as a compact deck wash system in a new build!

Buffertank in PVC white or HDPE black.
 Approx. 350-2500 liter.

Box Solid Housing for softener 2x11 ltr,
 NAUTIC PVC White 8mm. lxdxh 632x570x670 mm.
Box Solid Housing for softener 2x29,5 ltr,
 Nautic PVC White 8mm. lxdxh 632x570x1210 mm.
Mobile softener kit, 2 swivel and 2 fixed wheels

Eco Boat Wash - stationary outdoor boat wash unit

Baudoin Ocean Wash Systems Ltd. presents a NEW ingenious cleaning system for marinas.

The Eco Boat Wash is a must for every marina owner who wants to offer service while embracing environmentally friendly and ecological solutions! As the owner of a marina, you are always looking for the best service for your berth holders or guests. Rightly so, because we grew up in the Netherlands with water and we feel comfortable on and around the water, as a second nature. The Eco Boat Wash, the cleaning system for the boats in your marina, fits entirely in that spirit. With this system you can wash without using harmful cleaning agents and you can choose to use tap water or river water (no brackish or salt water). A perfect addition to your marina's blue flag and green pennant.

You can read how this is possible and how the system works.

Streak-free and extremely easy to clean a vessel again, who wouldn't want that? You as a marina owner can now make the difference in terms of convenience and service! The Eco Boat Wash makes, what was once plodding and difficult, now the easiest job. The ingenious cleaning system removes all minerals and lime from the (tap) water. As a result the boat dries flawlessly after washing with this pure water. This cleaning system has been successfully used in the Superyacht industry for over 10 years and is now also available for marinas.

The Eco Boat Wash is placed on a jetty, where boat owners can easily moor to wash their boat. The Eco Boat Wash is equipped with an extendable washing handle with sponge and has a contactless payment terminal, to pay easily with debit card, credit card or your own prepaid EcoWash key.

TECHNICAL SPECIFICATIONS

Internal Eco Boat Wash:

- Aluminum powder coated cabinet LxWxH 70x60x145cm (height excl. GSM antenna)
- Self-retracting stainless steel hose reel with 30 to 60 meters of flexible 8x14 mm hose
- Integrated membrane and pre-filter
- Main pump water unit and additional pre-pressure pump for constant pressure
- Fully automatic computer controlled
- Heating element for heating cabinet below 7° Celsius outside temperature
- Mains water connection ½" with Gardena nipple
- 230V with 16Ah circuit breaker, connection via blue Euro plug
- Power consumption unit 1450 Watt, 230 Volt, 50 Hz.

- Sponge brush head with 2 water nozzles
- Velcro attached exchangeable sponge
- Hose stopper on the hose
- Contactless Payer payment terminal
- Timer countdown LCD display
- 3G modem with special GSM antenna

PREFERRED LOCATIONS AT THE HARBOUR

Registration jetty, service jetty or on a jetty near a gas station

INSTALLATION REQUIREMENTS

- Tap water supply ½" with Gardena quick coupling (minimum 2-4 bar)
- Power supply 230V, 16Ah (contra Euro plug)
- Sufficient and solid floor space (minimum 70x60 cm) for installation of the Eco Boat Wash unit.
- Preferably close to the jetty edge, where, can moor the boats without any problems to wash the boat.

External Eco Boat Wash:

- Lightweight carbon telescopic washing handle of 3x 125 cm mounted in holder (extended 3.5 meter)

Complete presentation display
some elements can be added on the side panels or swapped with other elements

ECO Iron Cleaner CF685
1 liter 90.00077
5 liter 90.00076
Eco Friendly, low smell cleaner to remove harmful iron deposits (flyrust).
Ready to use product

Heavy Duty Cleaner & Degreaser CF675
1 liter 90.00036
5 liter 90.00037
Will remove all kind of dirt; environmental pollution, oil, grease, but also for calcium oxide formation. Put (pure) water in blue spray flacon and add 5-10% of the product

Universal Cleaner CF680 90.00012
Universal cleaner paste with silicium (Si14) protection
Box 250 grams

Teak Wood Cleaner CF760
1 liter 90.00042
5 liter 90.00043
100% organic. Does not harm other surfaces, such as: stainless steel, paint, gel coat, etc.
Ready to use product

Coating CF735
1 liter 90.00040
5 liter 90.00041
High-end silicium/ titanium formulation to protect all paint, glass, stainless steel and solid materials in one quick step. Put (pure) water in yellow spray flacon and add 5% of the product

Stainless Steel Cleaner CF690 90.00071
Stainless steel cleaner paste with protection
Box 250 grams

Wall mount for 1 or 2 cans of 5 liter cleaner/coating
Keeps all cleaners well organized. High density PVC, white
Wall mount for 1 can of 5 liter 81.00069
Wall mount for 2 cans 5 liter 81.00070

4x 1 Liter cleaner/coating + 4 spray flacons in wall mount
Keeps all cleaners and matching flacons well organized.
Set 81.00033

3x Universal Cleaner CF680 + 3x Stainless Steel Cleaner CF690 + 6x Blue sponges in wall mount
Keeps all cleaner tins and sponges well organized.
Set 81.00054
